To Do

Say: When you build a building, be careful about where you build it. You need to build on a strong, solid surface, called a foundation, so your building won't fall down!

1. **Give** each kid five straws.

Say: To build a strong tower out of these straws, would you build on top of my hands as your foundation? (*Place your hands on the ground and wiggle your fingers.*) Or would it be better to build on the solid floor as your foundation? (*Pound the floor to show how solid it is.*)

2. Kids **respond**.

Say: I think the floor would make a better foundation for a building than my wiggling hands! Let's build a tower right now on the solid foundation of the floor!

3. **Help** kids use tape and their straws to **design and build** their towers.
4. **Note:** Kids can work together in pairs or groups.
5. When time's almost up, **celebrate** the towers kids built on the solid foundation of the floor!

Proverbs 3:6 NLT Seek his will in all you do, and he will show you which path to take.

- What do you like about this Bible verse?
- **Choose a Question to Get Your Group Talking**
- What would you say if a kid asked, "What is wisdom?"
- What do you think is different about being smart and being wise?
- What do you think a kid can do to remember to choose God's way instead of their own way?

Wrap Up

- **Pray** together.
- **Do** the small group activity again or **play** a different game like *Thumb Wars* or *Telephone*.

Leader Tip

Try letting kids lead sometimes! Allow them to pick a question from your leader guide or ask one that's on their mind. It will give them ownership of the conversation and help them feel more included.

To Do

Say: When you build a building, be careful about where you build it. You need to build on a strong, solid surface, called a foundation, so your building won't fall down!

1. **Give** each kid five straws.

Say: To build a strong tower out of these straws, would you build on top of my hands as your foundation? (*Place your hands on the ground and wiggle your fingers.*) Or would it be better to build on the solid floor as your foundation? (*Pound the floor to show how solid it is.*)

2. Kids **respond**.

Say: I think the floor would make a better foundation for a building than my wiggling hands! Let's build a tower right now on the solid foundation of the floor!

3. **Help** kids use tape and their straws to **design and build** their towers.
4. **Note:** Kids can work together in pairs or groups.
5. When time's almost up, **celebrate** the towers kids built on the solid foundation of the floor!
